Dear St. Mary of the Lake Parents:

Carline Safety Reminders:

- I am requesting that all families K-8 using the car line have their children exit from the passenger side doors. Children are exposed to passing cars if they get out of the vehicle on the driver's side door.
- Make sure to pull your car all the way up as far as the swing set by the playground if possible. The children can walk back to the supervised entrance using the sidewalk.
- Parents wishing to assist their children out of the vehicle should be parking in the lot and walking them across to the entrance. Vehicles stopped in the drop-off line create safety issues for those that are backed up onto Second Avenue and Bald Eagle Avenue.
- Preschool students must be walked in to the building from the main entrance or at the preschool door entrance by their classroom. Preschool children may not use the K-8 parent drop-off line.
- Cell phone use is prohibited in the school carline. If you have an important call please park in the lot and attend to your business.

Thank you for observing these simple safety precautions. Our children's lives depend on them.

Sincerely,

A handwritten signature in black ink that reads 'Mr. Patrick Gallivan'.

Mr. Patrick Gallivan
Principal
